MINISTER GRABS MAN FROM TRACK, THUS PREVENTING INSTANT DEATH

Timely Intervention of the Reverend B. T. Kemmerer Saves George B. Couper, a Retired Contractor, From Being Killed by a Street Car.

RESCUER EVADES CURIOUS.

But for the timely intervention of the Reverend B. T. Kemmerer of Christ Church Chthedral, George E. Couper, a retired contractor, probably would have been instantly killed by a south bound timesters our shortly after noon yester-

crawing from the east side of Broadway within about 150 fact of Olive street and

Miss Mina Verdin, Who Says Arthur M. Barnes Stabbed Her in Back and Side, Swears She Did Not See Garments Police Declare They Showed Her for Identification - Attorney for Defense. Taking Advantage of Her Confusion, Tries to Impeach Her Testimony, but Fails-Defendant Denies All Charges-Verdict Expected This Morning.

Contradictory statements concerning two priviles of mearing apparel, made by Miss Verdin, closed the trial yesterday of Arthur M. Barnes, charged with assault with intent to kill her, in the Circuit Court in Belleville. The contradictory testimony Miss Verdin. Here was then called. Miss Verdin, here Verdie, closed the trial yesterday of Arw thur M. Barnes, charged with assault with insent to kill her, in the Circuit Court in Belleville. The contradictory testimony

In Belleville. The contradictory testimony was made in Miss Verdin's recall in relations in the fact had been brought out that several arrives of her clothing, as well as coming from the Barnes home, had been found in the home of Byrd Thompson, the negro, who confessed to stabbing Miss. Wordin, but afterwards repudiated his statements. She testified to calling at the stable was been above the request of the police, which was missing from the Barnes home with resistance and he shoved harder and fell inside. He said there was no light in the dining-room, and he did not see anyone leave Miss Verdin's room. He declared he was dreaked in his underskirt, said to belong to her, which was missing from the Barnes home with the rest of the garments, she declared he was dreaked in his underclothing and a light shirt, and afterwards that it had not been shown to her the earlier ago that she had not seen.

THE GUARDIAN OF OUR BODY

The foremost biologist of our day, Metschnikoff, has shown the world M. Metschnikoff, has shown the world of science that there are lencocytes in our blood that act as scavengers or policemen. These policemen which are called phagocyter look out for the nozious or poisonous elements in our blood. Various offending elements are picked out of the blood and tissues by these policemen and destroyed. Therefore our lives are protected by these blood-cell policemen, the phagocyter, and we enjoy immunity from disease so long as our blood contains plenty of phagocytes and red blood corpuscies. and red blood corpuscies.

"A new broom sweeps clean"—and in-order to put our own house in order we must get rid of all the poisons in the blood with a new broom such as an alterative extract made from roots and herbe—without the use of alcohol, as Dr. Plerce's Golden Medical Discovery, a specific for making rich red bleod—for eradicating the poisons from the blood. In some way the policemen in the blood are increased in number and strength—so that we are put in the best possible shape to resist disease to cure neuralgia, colds, catarrh, and in-

to cure neuralgia, colds, catarrh, and incipient consumption.

"The more study and time is given to the embject the more we find that the blood is the center of life"—says Dr. R. V. Pierce, the noted specialist of Buffalo, "the health and comfort of the average person depends entirely on this blood supply—for the heart must have pure blood or it will sot pump and keep the body supplied regularly like the beautiful automatic engine it is. The nerves must be fed on pure blood—or we suffer the pain of neuralgia, which is the cry of the starved nerves for food. Head-aches, cold in the head, catarrh—and many other things are due to stagnation of the blood."

Dr. Pierce's Pleasant Pellets are a m
